Installation Instructions for PhotoZoom Pro 3 and PhotoArtist 2

- 1) Verify all programs on your system are not running.
Note: In Windows, you must have Administrator privileges in order to install software. If you are unable to install software, please consult the Windows help system for details on setting up administrator privileges.
- 2) Insert the installation CD in your CD drive. Each program must be installed independently.
- 3) Double-click on **setup.exe** in the PhotoZoom or PhotoArtist folder on the CD. Follow the instructions on screen.

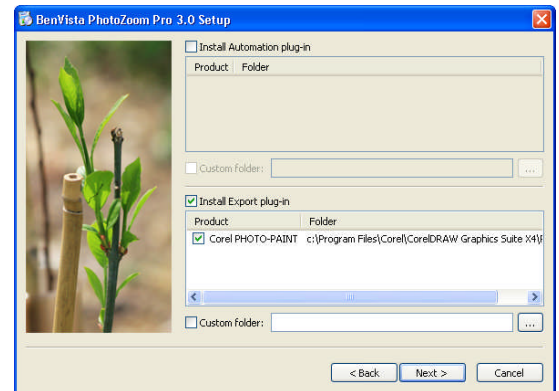

Installing Export Plugin Filters for PhotoZoom Pro 3:

PhotoZoom Pro 3 and Photo Artist 2 work as stand-alone programs, however, images can be automatically exported from Adobe Photo Shop, Corel Photo-PAINT and Corel Paint Shop Pro using the included export filter plugins.

4) The PhotoZoom Pro 3 installer will scan your computer for compatible host programs and display them in a list.

5) If a desired host program is displayed in the list, check the program in the list and click on **Next** to install the export plug-in. If a desired host program is not displayed in the list, you

will be prompted to browse to the specific plug-ins folder for your host application. Check the box for **Install exporter plugin to custom folder**. Click on the browse button, and highlight the name of the folder (generally “plugins”) and click on **OK** to install the program. Please consult the product manual for your host applications for the location of the “plugins” folder.

PhotoZoom Pro 3 Installation Window

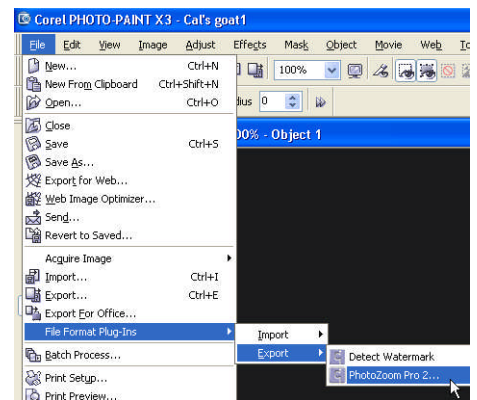

Location of Plugins Folders for Corel PhotoPAINT 12, X3 or X4:

If the export filter does not show up in Corel PhotoPaint, repeat step 7 and use the browse button to manually locate the plugins folder for your version of Corel PHOTO-PAINT.

- C:\Program Files\Corel\CorelDRAW Graphics Suite X4\Plugins
- C:\Program Files\Corel\CorelDRAW Graphics Suite 13\Plugins
- C:\Program Files\Corel\Corel Graphics 12\Plugins

6) Each time you run the software, you will be prompted to activate your software with the serial number included in the front cover of your CD case.

7) To export an image from Corel PHOTO-PAINT, select **File Format Plugins/Export/PhotoZoom Pro 3** from the **File** menu. The image will be automatically transferred to Corel PHOTO-PAINT.
